London Oct. 11. The famed American frigate Chesapeake, a crack ship of their navy, which became the Shannon's glori. ous prise, and was condemed at Plymouth, has been purchased by M ss. Pushman & Holmes, of Portsmouth, who are under bond to government to break her up the next spring. She has been brought round to Portsmouth harbour, by capt. Geo. Goble, of Bosham, with a crew of 19 men only, under jurymasts, in the most seamanlike manner, and as a great object of attention among nautical men. She is unquestionably as fine a ship as ever swam; her timbers are remarkably stout; her upper deck is 174 1-2 feet in length, and 41 feet 6 inches in the midships; she mounted 54 guns of heavy metal, and was the Shannon's superior

in every respect but discipline. The following is an extract of a private letter from Liverpool, dated Oct. 9:-"The Betry, captain Wedgewood, arrived here this day from Philadelphia, with upwards of 160 men, women and children, returned emigrants. The tide of emigration has turned, and those poor creatures who have been induced to leave their country, their homes, and friends from the flattering prospects held out to them of that land of plenty and freedom (the United States) are now happy if they can find the means of paying their passage to return to Oid England."

London, Oct. 13. We gave on Monday the detail of the Revenue of the year, which closed on the 9th of Oct. (the usual day, the 10th, being Sunday.) Our readers will have perceived that it does not gratify the hopes of the Radicals, or realize the anticipations of croaking Whigs. The total produce of the year 1819, exclusive of the property tax, compared with that of 1818, shows a decrease of no greater amount than 368,941. or about one quarter of one per cent upon the whole revenue.

October 19. On the representation of the captains commanding the large ships in ordinary on the Canadian lakes, Warrant Officers have been appoint. ed to all the vessels, some of which are large first rates, as the following list, which we have been favoured with, will shew. This is a wise measure, and ought to have been adopted sooner. We hear, also, that an extra number of Warrant Officers are to go out for the purpose of providing for casualties.

PROPOSALS,

For publishing, in the City of Annapolis, A Periodical Work, to

be entitled, THE RELIGIOUS AND LITE RARY REPOSITORY.

To be edited by a society of Laymen, members of the Protestant Episcopal Church.

The leading views of the Editors are stated in the tollowing note, by one of the persons, who will be actively employed in the selection of the matter for publication

The Religious Magazines which have

the church, are, some of them, very useful the church, are, some of them, very oscillars far as they go. My objection to them is, that they do not attempt to give us information, of which the laity, and indeed clergy, tand in much need, and which is w great difficulty to be obtained. In this cipation in the affairs of the chuich, and ought to possess an intimate knowledge of its history, constitution and laws. As church wardens, and t ustees or vestrymen, as well as delegates to the convention, they have important and very solemn duties to perform, and with a knowledge of these duties, it ought to be the business of these magazines to furnish them. The subjects usually discussed in them have already been explained and enforced by pious and learned divines, with as much ability as could be expected from more modern writers, and a knowledge of what we a ento believe and do in order to he saved,' be communicated to our readers as well by selections, as by any original matter which we might be able to offer to them. From the writings of approved divines, not alchristian doctrine and duty. The magazin will aim to be useful, and desires no other

christian doctrine and duty. The magazine will aim to be useful, and desires no other reputation.

I am induced to hope that, besides furnishing the laity with useful information in regard to the duties which are imposed upon them, some hints, worthy of their attention, may occasionally be given to the clergy. While they act up to their ordination yows; endeavour to frame and fashion their lives according to the doctrine of Christ, to make themselves wholesome examples of the flock of Christ, and reverently obey their Bishops, following with a glad mind and w ll, their godly admonitions, they deserve, and there is in the laity of the church of Maryland generally, every disposition to honour and support them. If, however, at any time, any of them forget to play due regard to their own solema engagements, and instead of loving to sidwell together in unity," a design smould be manifested to introduce disorder and misrule into the church, to oppose its legitimat authority, or to assume powers which do not belong to them, then it is not only the right, but it becomes the imperative duty of the laity, to animadvert upon such conduct with unsparing severity.

Approving entirely of the forms prescrib

sparing severity.

Approving entirely of the forms prescribed, and of the doctrines agreed to by our Church, it will be no part of the business of the Magazine to recommend or even to connive at, any new inventions, whether in tenets, or discipline or worship.
